

Sunningwell Primary School

Newsletter – March 2021

Dear Parents/Carers

We are very pleased to have all the children back in school. It has been good to hear their stories of Lockdown 3 and some of the joys and sorrows of being confined to homes during the winter. We know that many found the first week back very exciting but also very tiring.

Dates for this term

Wed 31st March End of Term 2pm – Please pick up promptly from school.

School returns on Monday 19th April.

Street Tag

Thank you for all who are participating in the competition. As you will see from the ParentMail messages, Team Sunningwell are smashing it! Keep up the good work.

Drop Off/Pick Up

Thank you for adhering to the one-way system. We do have a number of lorries that need to make deliveries to the school from 9.00am and recently they have not been able to access the lane because of cars parked at the bottom of the lane. We have also received complaints from residents of cars blocking driveways and reversing into them to turn round. Please be courteous to and respectful of all our neighbours on the lane.

Contact with staff out of hours

If you wish to contact any member of school staff, please email the school office address. School hours are 8.40am – 3.15pm Monday to Friday. We would kindly ask that you do not contact staff directly should you have their personal email/phone about any school matters. If you email the school office outside of school hours, please only expect a response during school hours. We are very keen to maintain professional boundaries and to ensure that our staff can maintain their personal time free from school matters.

Lockdown Restrictions

Please remember that, whilst we are back at school, lockdown restrictions still remain.

Some local schools have already had to close classes because of positive COVID results. We have been extremely fortunate that we are one of the very few schools that have not had to close over

the past year because of a positive case. For those schools which have had to close, this has caused a great deal of disruption and difficulty due to those affected having to self-isolate.

We would ask that in order to keep infections rates down, that we all play a part in adhering to social distancing and lockdown rules.
